

To: Bob Keeling
From: Joseph Epstein

January 24, 1987

Dear Bob,

Three weeks or so ago I've been
gently & nante and now I can answer,
because I finally have an idea how
to include one of the founders of
the project into this rapidly develop-
ing tree? I invite you to start
working on our may ship-trip withing
docu-drama experimental film project.
It is already supported here, so let's
find an american sponsor-producer and
then develop a detailed script. You can
easily talk to me daily via Serling
Sending E-mail inexpensive messages.

I know another american, also old friend
of mine, who also liked to include heavy
Russian sayings as a sign of deep warm-
feelings. His name is Dusko Leder. He
just published a new book about us:
"Shadows and whispers". Please, find a
copy (or call him in Washington and he
will send it to you for me) and give it to
me to bring. Read this book, too. Life
is changing so drastically, that any good
reflection on it is better to know himself-
from books of contemporary thinkers. And
Dusko is one of them.
We did not waste time, dear Bob, during

that spring 1983, when decided to make
Rohr application. I remember everything -
envelope you brought from American
Embassy, your discovery of Hammer
Center. I ^{am} still a frequent visitor of
Control Data Office with our
Tina always ready to help, and
much more, but I want to talk about
future, because a unique situation
created by ABC - initiative opens
unprecedented potentials to make a
quantum leap in Real Soviet American
Relationship.

Let's return to work, Bob.

With warm memory
and demanding love
your friend
Joseph
